

Company policy

1. Client orientation: the present and future of our company, the stability of working places and the level of remuneration for each employee are depended on the success of our Clients. Therefore, the efforts of each employee should be aimed at tasks fulfillment set by the Client and at striving to exceed his expectations.
2. Person is the main value of our company. We give priority to preservation of jobs, satisfaction of employee, the level of professionalism of everyone, work atmosphere, labor safety and human health. A behavior-based safety program (BBS) is in place to increase the safety of warehouse workers during their activity at the enterprise. Our company excludes the possibility of staff working under drug and alcohol addiction, it also rejects any forced and child labor and refrains from any discrimination based on race or ethnic origin, sex, religion or ideology, age identity.
3. Our company represents itself as a provider of individual high-quality logistics solutions. Each employee works to improve the quality management system as a basis for customer satisfaction.
4. The company is a complex system of balance, counteraction and conflicts of interest that ultimately contribute to optimal results. For quality improvement everyone is responsible for providing information about possible development or inconsistencies identified in the work process. All leaders must be aware of the interconnection of processes and structures of the company and be guided by an integrated quality management system to resolve disputes.
5. Continuous improvement of the financial results of the company, constant reduction of risks in its activities, as well as compliance with the current legislation is a steady goal.
6. Economic feasibility, employee safety and environmental protection are obligatory criteria for decision-making.
7. Cooperation with clients and subcontractors are built on a mutually beneficial, partnership basis. Long-term cooperation is possible only with companies that meet our requirements for labor safety, quality and environmental protection.

Glib Akchuryn
General Director
