**Observations:** The transit times stated in the list are based on working days from terminal to delivered at destination when the delivery area does not exceed 50 km from the unloading terminal. The transit are average delays and have been calculated under normal circumstances of transit. These delays do not constitute a commitment on our part, except in the case of a prior agreement between the two parties. Exceptions are transit times for hazardous goods, specific chemical products, customs clearance, inspections, deliveries to islands or other force majeure factors, etc. please contact us for detailed information. For holiday periods, do not hesitate to get more information from our operational department.
